Subject: Figure for today's call
Attachments: Legacy Permitting Approach - EPA call 8-23-17.pdf

Good morning Mark,

Attached is a diagram illustrating the proposed approach for dealing with the existing Cliffs Erie permit for the tailings basin in the event that the NorthMet permit gets issued. This could be helpful if we talk about this issue in today's call. (This is the same diagram we sent EPA last August.)

Please forward to your team as appropriate. Thanks!

Richard
